Driving Change Management

Who is it for?

Our practical 2-day change management course is based on effectively managing change and setting strategy to implement those changes successfully. In recent years businesses have been challenged with a combination of complex changes required from a faster pace, digital innovation, adopting new processes and lowering or combating overheads. Regardless of the change people are impacted.

Leaders and managers have a critical role to play to ensure an organisations future is successful, organisations need change savvy leaders and managers to drive a culture for change.

This course will be ideal for anybody who manages people or relationships that wish to manage change effectively within their teams. This course is a must for anybody in a leadership or managerial role within the business, including those who are taking their first steps into management, who have been managing for some time or who may be taking on a leadership or management role in the future.

Some example topics covered during the course are Understanding the change cycle, communication strategies to achieve change, strategic alignment, touch tight management, creative thinking to solve problems associated with change and 4 rules of end state for setting strategy.

What will you learn?

- Develop skills, behaviours, and confidence for successfully driving change management
- Be able to understand the change cycle
- An insight into creative thinking approaches to problem solve during the change management process
- Gain confidence in your ability to manage changes in your business
- Improve communication strategies to achieve change
- Increase productivity through periods of change through strategic alignment
- Links between coaching and touch tight management

What impact will it have?

- Increase ability to assess and understand the need and the impact of change
- Assess and understand the need and the impact of change
- Align resources within the business to support the change
- Maintain or even increase productivity, morale and efficiency
- Reduce the time needed to implement change
- Respond to challenges during change more effectively
